# CASPER NANO-CORE CARTRIDGES

*Same oil, better flavor, happier customers!*

Nano-Core Technology is the blend the cartridge evolution, it's the most modern & flavorful way to vape! Our Nano-Core cartridge feature our patented quartz atomizer and filter system that enhances oil flavor while reducing leakage and damage. Our stock Nano-Core cartridge can also be fully customized to suit your branding needs.

## Nano Atomizer

Bear Rootz Inc. Nano-Core heating element is thoughtfully designed to create smaller vapor particles upon contact with Oils.

## Increased Bio Availability

The Nano-Core atomizer by creating smaller vapor particles increases the rate of which absorption happens. Allowing for smaller puffs for a similar medication dose.

## Cutting Edge-Innovation

Bear Rootz Inc. is committed to creating the newest and highest-quality products in the industry.

3	Ceramic Center Post				

The “Casper” is a **glass cartridge** with a **ceramic center post** that has an exclusive to **Bear Rootz Nano-Core heating element** which is designed to deliver the ultimate vape experience. More puffs per cartridge of the same size than any other!

The **Nano-Core heating element** was thoughtfully engineered to create smaller vapor particles upon oil contact. This increases efficiency of oils and improves bioavailability of oil compounds due to the decrease in vapor particle size. With the combination of a ceramic center-post and the **Nano-Core heating element** our Casper cartridges create a unique and market-separating experience for any brand!
